# About Austal

*Austal is the Australian shipbuilder, defence prime contractor and maritime technology partner of choice; designing, constructing and supporting revolutionary defence and commercial vessels for the world's leading operators.*

*For over 27 years, Austal has designed and constructed over 255 vessels for over 100 operators in 44 countries, gaining an enviable reputation for innovative shipbuilding using advanced technologies. From safe, modern shipyards located in Australia, the United States of America and The Philippines - and service centres located around the world - Austal offers naval, government and commercial operators the highest quality SHIPS, SYSTEMS and SUPPORT.*

## Work Experience Opportunities

Austal are currently offering work experience opportunities in the following areas:

### Aluminium Fabrication and Welding

- ◆ Marking off, cutting, shaping, assembling and joining metal components

### Electrical

- ◆ Installing, commissioning, altering, repairing and maintaining electrical systems designed to provide heat, light, power and control

### Marine Fitout (Cabinet Making)

- ◆ Fitting out the interiors on all types of vessels working with aluminium honeycomb light-weight panels

### Marine Fitting (Engineering)

- ◆ Fitting and assembling parts and sub-assemblies made from metal and other materials to make production machinery and other equipment
  - ◆ Work on all aspect from installation of main equipment, fabricating and pipe work through to testing and commissioning

# About Work Experience

Work experience is available at Austal all times throughout the year.

Students can be accommodated in the following placement types:

- ◆ Block release - Monday to Thursday for between one and three weeks
- ◆ Day release - One day per week for up to 20 weeks

Our working hours are 6am - 4:30pm

Prior to commencing their placement, each student will take part in a site safety induction where they will be provided with a safety helmet and glasses to use while working with us. During all placements, students are allocated a supervisor and a dedicated tradesperson.

## Requirements

- ◆ Ability to understand directions and follow instructions
- ◆ Ability to commence work experience at 6am
- ◆ Genuine interest in the selected area
- ◆ Completion of WorkSafe 'SmartMove' modules
  1. General Module
  2. Manufacturing
  3. Metals & Engineering

\*NOTE: Guidelines for completing these modules will be provided in the application process - Part 2

### Attire

- ◆ Long sleeve shirt and pants
- ◆ Steel cap boots
